

New NC3Certs.com Update

NC3 is pleased to announce an update to NC3Certs.com! This update:

- streamlines student certification assignments
- improves the accuracy of reporting for administrators
- and strengthens certification integrity

The process to assign students to certifications remains the same. When assigning students by individual or by group you'll be granting them 3 exam attempts in a 100-day window. Students who fail to complete a passing attempt within this 100-day window can be granted 3 more attempts once the 100-day expiration date has passed. To grant new attempts simply un-assign and re-assign students for 3 more attempts and 100 days to complete the exam, no need to contact NC3 and request assistance.

Please note that students who have exhausted all attempts or whose access has not yet expired cannot be granted new attempts or time until after the expiration date listed on their exam page.

Contact [Nick Gill](#) or submit a help request for assistance with students who require ADA exemptions.
